To: The Walt Disney Company

We, The Undersigned, believe that your company's decision to cancel the popular show *Phil of the Future* at the end of season two is both unfair to the fans and a bad business move to the company. The goal of any media company is to get people to watch their programming, so shows that have high ratings should be kept in production until the people decide they've had enough, at which point the ratings will decline. We understand that you want to be able to place Alyson Michalka in a new show, but there is no reason that you can't either have Aly on both shows or write her out of *Phil*. We present you this petition in the hope of convince you to give *Phil* a proper conclusion in a third season. Thank you.

Thank you,
The Undersigned
