To: The Walt Disney Company

We, The Undersigned, believe that your company's decision to stop production of the popular show *The Suite Life of Zach and Cody* is a mistake. The goal of any media company is to get people to watch their programming, so shows that have high ratings should be kept in production until the people decide they have had enough, at which point the ratings will decline which has not happened. That's So Raven has shown that that it is good business practice to make four or more seasons of a show, and with its large ensemble cast, *The Suite Life* has a lot of potential left. We present you this petition in the hope of convincing the company to continue *The Suite Life* related projects; be they another season, a spin off, a movie, or something else.

Thank you,
The Undersigned
